**Note:** Population Banking as described in Kitsap County's Updated Comprehensive Plan LU-13 applies to the potential need in specific UGA's (e.g. Central Kitsap) to work with adjacent Cities to resolve unmet population growth targets through an UGAMA or to re-allocate population to other UGA's over time, through the Kitsap Regional Coordinating Council process.

Population distribution will be reviewed through the Kitsap Regional Coordinating Council process every five years. The review will include an analysis of the Cities' and County's progress in achieving target distributions. If the 76% UGA target mentioned above for new population growth and the overall population targets are met or exceeded, the target for new population will revert to five sixths (83%), as per the revised County-wide Planning Policies adopted by Kitsap County Ordinance #258-01 on August 20, 2001. Otherwise, the target may be reaffirmed or explicitly modified.
